# Vision Mission

## **VISION**

Become a center for transformative U.S. oceanic and coastal research and education.

## **MISSION**

Serve the general public, all levels of government, and the academic community, by improving ocean literacy and providing the best available science for coastal policy, including:

- 1)** producing and disseminating knowledge regarding world oceans, coastal zones, and watersheds;
- 2)** training future generations of oceanic and coastal scientists; and
- 3)** enhancing public understanding and stewardship of oceanic and coastal resources.

# Values

## CORE VALUES

### **Excellence**

We are committed to the pursuit of excellence in all aspects of the academic enterprise, including education, research, innovation and community engagement, that pertain to the world's ocean.

### **Ethics and Integrity**

We are committed to the highest standards of academic integrity, intellectual freedom and the free exchange of ideas.

### **Diversity**

We are committed to the promotion of a community that embraces inclusivity, civil discourse, and consideration of ideas from all segments of society.

### **Community Engagement**

We are committed to promoting the value of marine science, research and education, in its many facets, to citizens of all ages in our state and nation.

### **Financial Responsibility**

We are committed to being wise stewards of taxpayers support via the pursuit of new technologies, innovations and training that facilitate the cost-effective delivery of education and our research to students and community.

# Our Brand

## Stating Our Brand

The Dauphin Island Sea Lab is a centerpiece in the state of Alabama's marine research and education programs and a center for transformative oceanic and coastal research. DISL programs reach all corners of the state and beyond to research and educate about the changes in the marine environments.

Located on the eastern tip of Dauphin Island, a barrier island in the northern Gulf of Mexico, DISL is surrounded by Mobile Bay, the Mississippi Sound, and the waters of the Gulf, making it a perfect location to conduct a wide range of marine science activity.

The DISL brand echoes what students, faculty, educators, and supporters think, feel, and respond to when they hear the Dauphin Island Sea Lab mentioned. Once a part of the DISL campus, always a part of the DISL campus.

This style guide outlines how to consistently apply the DISL brand messages and visual identity. All DISL programs should be familiar with the style guidelines. It provides a solid and standardized foundation upon which all DISL departments and programs can build their marketing communications and plans. Designs developed by DISL programs and departments must be submitted to the Public Relations Department to ensure consistency with the standards in this manual. Upon review, if materials do not comply with the brand guidelines, the Public Relations Department will outline the appropriate modifications.

The Dauphin Island Sea Lab tagline is:

**Alabama's Center for Marine Research and Education**

# Information & Resources

## Information & Resources

The Dauphin Island Sea Lab brand is our promise to our supporters about the experience they will discover through all DISL programs. This promise informs every aspect of our marketing and communications.

We all play a role in strengthening the DISL brand. You help by incorporating these guidelines into all marketing and communication materials. The guidelines offer flexibility to effectively communicate to your specific audiences while incorporating the DISL's vision, mission, strategic goals, and strengths.

No matter what program or department of DISL is represented, our primary brand is always—marine education and research.

Use the DISL logo on all marketing materials. This includes brochures, newsletters, publications, academic materials, videos and websites.

The logo must remain as originally drawn and proportioned, and should not be modified or altered in any way. The text is a graphic element, not a typeface. Do not use the logo or any part of it in narrative copy.

- For general web or digital use, use PNG files.
- For media or professional printer use, use EPS files.

Alternate logos are available for use when space or design does not allow for primary lockup.

## Program Names

# DISL Logo Icon & Colors

## DISL Fish Only

In certain circumstances, “the DISL fish” can be used on its own, but “Dauphin Island Sea Lab” must appear in close proximity. For instance, on the back of a publication you may use the “the DISL fish” only when the return address includes “Dauphin Island Sea Lab.”

## Primary Logo Colors

The DISL primary logo will consist of three colors. The DISL name will be PMS Warm Grey 11, the fish will be PMS 7461, and the lower waves will be PMS 558.

## The logo reversed in white appears as:

The DISL Foundation includes two logo options. The primary logo for the DISL Foundation will be the life preserver version. The logo will appear in PMS 7461 with the secondary color of Warm Grey 11.

## One-Color Logos

The logo may be used in one-color as needed. Acceptable one-color options are white, Warm Grey 11, and PMS 7461 C.

# Program Identifier

## Logo with Program Identifier

The Dauphin Island Sea Lab recognizes the need for various programs to be identified and created guidelines for custom signatures to be incorporated into the new DISL logo, allowing the logo to be supplemented with the names of programs.

The authorized addition of the appropriate program is the only appropriate modification to the logo, and such logos must be requested from the Public Relations Department.

Files are available in .eps, .jpg and .png format.

# Protecting Our Logo

## Protecting Our Logo:

To ensure consistent use of the logo, do not use past DISL logos.

Dauphin Island Sea Lab

Do not change the colors of the approved logo.

Dauphin Island Sea Lab

Do not create your own version of the logo.

## Spacing Around Logo:

Always provide ample spacing around the logo. No less than the width and height of the letter "D" should be used when design elements lay close to the logo. This space is designated as the safe area around the logo.

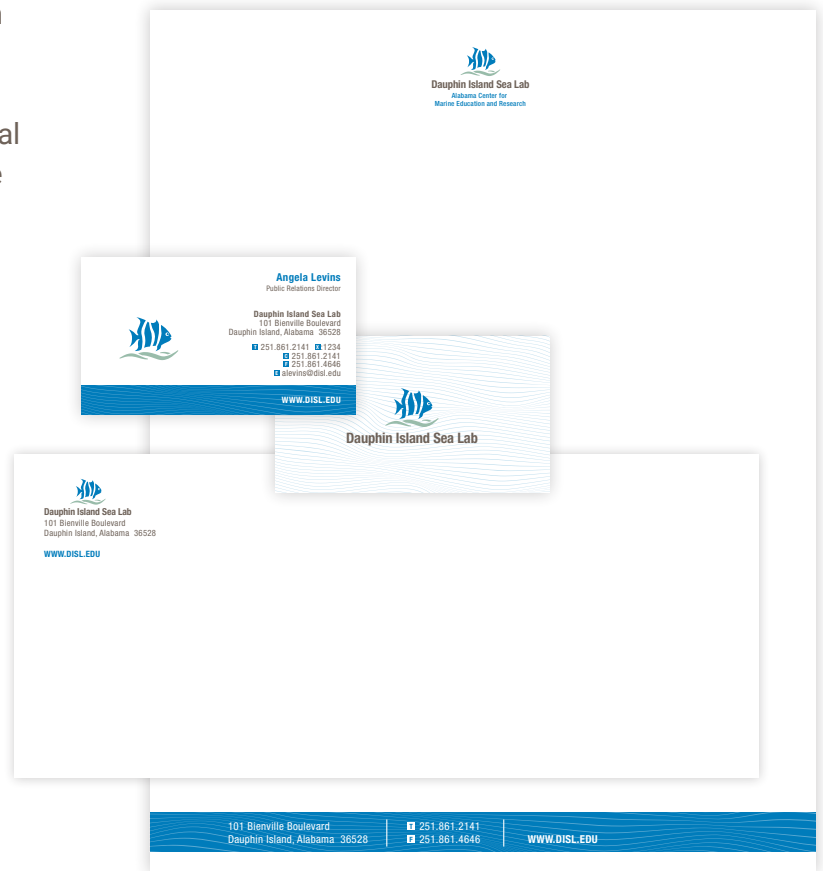

# Business System

## Stationary

Stationery is used in communications with people and organizations outside the Sea Lab. Adhering to these guidelines will maintain consistency and quality in external communications. These files are available in the DISL Intranet.

Letterhead  
Envelopes  
Business Cards  
Agendas, Memos, Faxes

## Email Signature

A standard email signature is created for all DISL staff, students, and faculty to use. The template can be located on the DISL Intranet.

# Color Palette

## Our Color Palette

The color palette provided offers complimentary colors to the DISL logo colors. These colors cannot replace the current logo colors.

## Texture and Background

The textured wave lines are a part of the business system and can be used in other marketing materials. This file is available on the DISL Intranet.
